

- I. Call to Order for West Highlands Neighborhood Watch Follow-Up meeting for January 19, 2016
- II. Updates

We had updates from neighbors who have been going door to door to gauge overall interest in a Neighborhood Watch program, as well as an update on the online survey regarding the same. There has been an overwhelmingly positive response from neighbors so far. If you have not yet completed the survey, please try to do so within the next week so that we can collect all responses. (<https://www.surveymonkey.com/r/QP3MK3B>)
- III. Village Defense App Demo

Demo of the Village Defense app was given with a Q/A. Those present all seemed to be in agreement that this will be a very useful tool for security communication amongst neighbors (you can get either text or voice alerts to issues in WH), as well as a good tool for connecting Protect Security and any surrounding apartments as well so that we are all watching out for each other. The app is free and we would like to immediately implement this tool for all security related warnings/notices to neighbors. Please download and create your profile (Village Defense) ASAP so that we can get this rolled out.
- IV. Next steps
 - a. Activate Village Defense App
 - b. Sarabeth Custin Stine is speaking with vendors regarding possible discounts on bulk camera orders. Preliminary information from the survey suggests that we already have at least 45 households looking to purchase cameras.
 - c. Once we have all surveys, CJ Mitchell and I will reach out to folks who have indicated they are interested in cameras to get more details.
 - d. Map neighborhood camera locations.
